Login To Test Servers

Steps to login to the Linux test server:

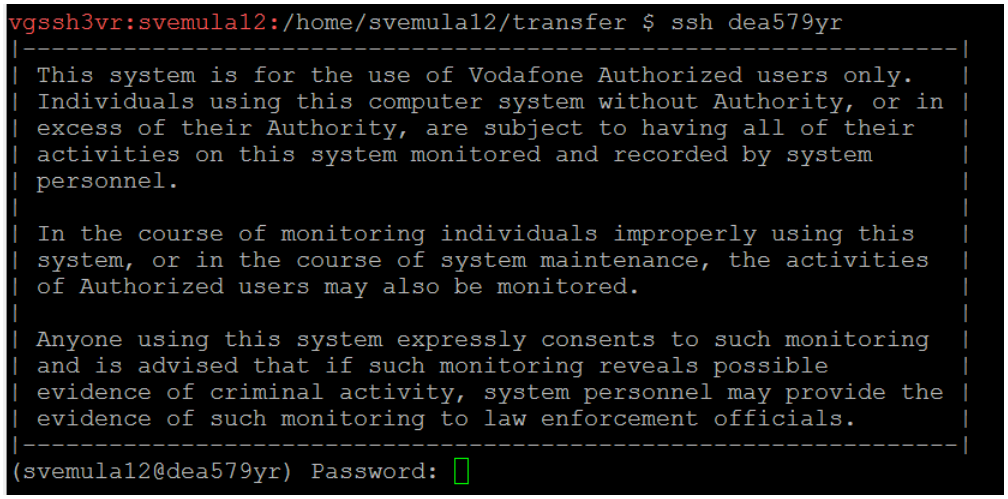

Step1: Login to ***195.233.238119*** with your personal unix user:

Step2: Do the ***ssh vgssh3vr*** and give your unix pasword:

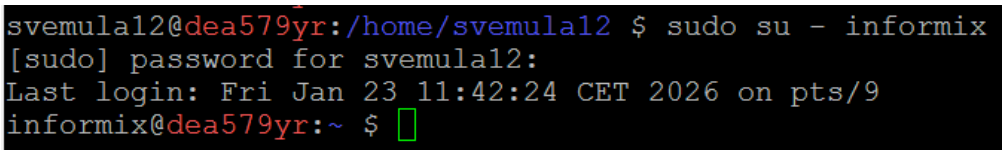

Step3: From there do ***ssh dea579yr*** and give your unix password:

Step4: From here login as unix user with sudo and enter your unix password:

sudo su - informix

And here you go, you have logged in as an Informix user into Linux test server..!!

Now, you are ready to perform all the administrator commands in test linux server.
